Special Call for abstracts in Translational studies and Travel Grants

This year our Conference will specially focus on **translational studies**. Translational studies - is an effort to build on basic scientific research to create new therapies, medical procedures, or diagnostics. These data represents the long way from idea, it's in vitro approval to the in vivo testing and application.

Our partners from **ThermoFisher Scientific Ukraine** will provide travel grants for those selected participants who will submit an abstract on Translational studies and will take part in the Conference.

Our partners from **The Ukrainian Biochemical Journal** will select the best reports. Their authors will be invited to contribute the Special Issue of the Journal dedicated to the Translations Studies.
